## Millinery and Artificial Flowers.

Paris can't withhold from us her secrets of beauty in hat making. Indeed, we find her best and in adding our own best to hers it's not too much to say we may give her points. Even with the hurry and the immense business of before Easter, still our store is just as pretty with those creations which you like.

The artificial flowers are wonders of skill and taste—a touch of natural perfume is all that's needed to make them real. And the prices are for everybody.

**Cameras at a Reduction.**

A number of the Rochester Optical Co.'s Premo Cameras (models), which are slightly shop worn, no practical harm, but we cannot offer them as perfect and therefore will dispose of them to-morrow at a great reduction.

**Carlsbad Pine Cone Soap.**

It's the most economical soap made. It lasts longer than other soaps. It's just as good in its use and effectiveness when there's a tiny bit left as when you start with a whole cake. It's the nicest soap in the world for the nursery, healing, soothing and pleasant to the most delicate skin of the baby. There's nothing known to science so good for the skin. Have you tried it? The genuine is sold by us only in this country.

## The Best Silk Offer of the Season.

### 59c. for \$1.00 Printed Foulards.

We've been watching for a good opportunity to give you something very remarkable in silks. The time is ripe and here are the silks. A lot of 8,561 yards of 24-inch printed foulards. Every piece new, made this season for the best retail trade, and none of the patterns ever shown in Brooklyn before. The variety of designs is immense. They come in small figures, medium figures and those larger Persian ideas so popular this season. Every piece speaks worth and is like an indisputable document of this store's character. In fact, they are silks the quality of which, without exaggeration, is being sold to-day everywhere at \$1.00 a yard. We offer the entire lot at this sale to-morrow at 59c. yard. Another of our silk revelations and a further evidence of our incontestable silk supremacy.

## Economy in Cleaning and Dyeing.

Have you ever stopped to think how really unwise it is to put away any kind of winter garments before having them cleaned? Uncleaned clothing often has the germs of the moths already in them. Our dry cleaning process is a perfect one and prevents moths. The process is exclusively our own, doesn't shrink garments or alter their shape. We can make blankets soft and fluffy and look like new. It has been a success for years.

Curtains, Blankets and Garments we will clean or dye now and store them free of charge until September.

## Something New in Trunks.

The Best and Newest Always Come to Loeser's.

This is quite a departure in Trunk making—a Wardrobe Trunk, the best and most practical trunk ever invented. Why wasn't it thought of before? The capacity is 12 women's or men's costumes with use of the detachable swinging box, or 18 without it. The claim is a modest one, as will be proven by the use of the trunk. It is unlike all other trunks and will be doubly appreciated by all European travelers. We are sole agents for this trunk in Brooklyn. In addition we offer our Paris Exhibition Trunks, which will be sold at special prices.

## Some 1-2 Prices in the China Store.

## Character in Furniture.

The Newest Summer Readiness.

Progress in our Furniture Store never quite repeats itself, but produces something that's new and fairer. Imitation lost sight of and creation the aim. Thus the to-day are in some way outdoing the yesterdays. Something to see this week that wasn't here last week.

We never had such an interesting display of furniture for summer use. Not the ordinary kind, but furniture with character about it, something that cannot be aped or contended with; something that foils emulation. Even if we could describe these new arrivals in type the detail might weary you in the reading, while a visit here will be sure to give you pleasure as well as many a suggestion for your comfort and tasteful adornment of your summer home. That the prices are interesting goes with out saying, for they are the lowest anywhere; but drop in to-morrow.

## Great Sale of Shirts and Collars.

Three \$1.00 Shirts for \$1.00.

5c. for Two 10 and 12½c. Collars.

This is a kind of clearing sale, a making way for the Negligee Shirts. Thus we offer all the soiled and slightly mended up shirts of our former sales at a price low enough to clear them all out.

Most are laundered white shirts, a few fancy ones, and fully 90 per cent. of them are \$1.00 shirts, the rest are 50 and 75c. kinds; sizes 14½ to 18 inch neck. Think of 35 cents for such shirts—3 for \$1.00.

The Collars—not sent, exchanged or credited. A ridiculously low price for these men's and boys' collars. The only fault, there's not enough of a kind, or soiled or mended; a goodly supply in sizes 12 to 15½ inch neck, only a few of the larger sizes. No limit to the quantity sold a purchaser, only we ask you to take them with you, and we do not exchange nor credit them at these prices.

## Fancy Flannels.

The newest kinds, in all the latest spring and summer shades, prettiest ever shown.

Scotch Flannels, pretty stripe effects, 49c.

Fancy Scotch Flannels, silk stripe effects, 50c.

The latest novelty in light-weight, all-wool Scotch flannels for spring and summer wear—a great variety of new and exclusive designs at 98c.

## Cold Storage for Furs.

The Ideal Method. No Other Plant in Brooklyn.

An experienced Furrier is in charge. In the old method of fur preservation the cure is nearly as bad as the disease. Moths are kept out—but at a heavy price. Tight wrappings and frequent heatings destroy the elasticity and softness of the hair. Camphor and Naphthalene dry out the natural oils in the skin, resulting in dull and wiry fur instead of the velvety gloss so highly prized. There is but one scientific method—Cold Storage. Every furrier will admit to you that cold storage is the best method for preserving furs. Pure, cold, dry air—at once a GERMICIDE and PRESERVATIVE. Adds to the beauty and prolongs the life of all furs. No destructive heatings or foul smelling and unwholesome drugs. No tedious "airings" required before your furs can be worn in the Fall. A method at once hygienic, dainty and economical—for preserving Clothing, Rugs, Carpets and all other fabrics against moths—and germs. Only at Loeser's. Write us for full particulars.

## \$5.48 for Trustworthy Refrigerators.

We will place on sale to-morrow morning 44 "Star" Refrigerators at the lowest price ever quoted. They have perfect circulation, are charcoal sheathed, very economical in consumption of ice; cleanliness, simplicity and best flues; they are furniture finished, have bronzed hinges and locks and solid metal shelves. While 44 last, \$5.48.

We call special attention to Wilke's Porcelain Refrigerators, for which we are sole agents for Brooklyn.

## The "Favorite" Gas Ranges Demonstrated Daily by Mrs. Lemcke.

The "Favorite" may be cold one minute and ready for the table in 10 minutes later. It saves fifteen to thirty minutes' time in preparation of any meal—a fact that will be appreciated—especially in the morning—no dust—no dirt, no sweating over heated kitchen, and flushed, tired, cross cook. You can have your choice of different sizes at \$14.98.

We are also agents for Brooklyn for the celebrated "Wolf" Gas Cookers.

## "Peerless" Ice Cream Freezers.

The best freezer made; acknowledged such by every competent critic. Very simple, easy to work and all the gearing is closed. Impossible for salt water to get into the can, scientific dasher, easy to clean, positively no odor, and all the gelatinized parts are coated with the very best black tin.
